

CALIDA MINI
WIRELESS

Warning

The product contains Li-ion batteries inside. Please keep it away from fire, strong vibration, exposure to direct sunshine or any improper use. Please keep the wireless charger away from high humidity environment.

Technical data

Nominal power: 2.2 W
Operating voltage: 5 VDC
Nominal flux (full brightness) : 190 LM
Typical CRI: 97 RA R9:95
Charging time: 3 Hours
Service time: 15 Hours with full brightness
Dimming range: 5-100%
Default brightness: 100 %
Battery capacity: 5,000 mAh
Lamp shade material: Aluminum
Charging dock: USB type C
Working temperature: -20°C ~ 35°C
Safety class: III SELV
Ingress protection rating: IP 54
Safety standard: CE
Over charge protection: Yes
Over discharge protection: Yes
Low battery indicator light: Yes
Wireless charging function: Yes
1 M type C cable included in package

Operation

Turn on your CALIDA WIRELESS by slightly touching the  on the top of the lamp shade.

Touch the  again to turn off the lamp.

Dimming: keeping touching the  for at least 3 seconds to dim the brightness up or down.

Charging by USB:

Please charge your CALIDA WIRELESS when the indicator light on the lamp base turns to red which indicates low battery capacity. The indicator light will turn to green when battery being fully charged.

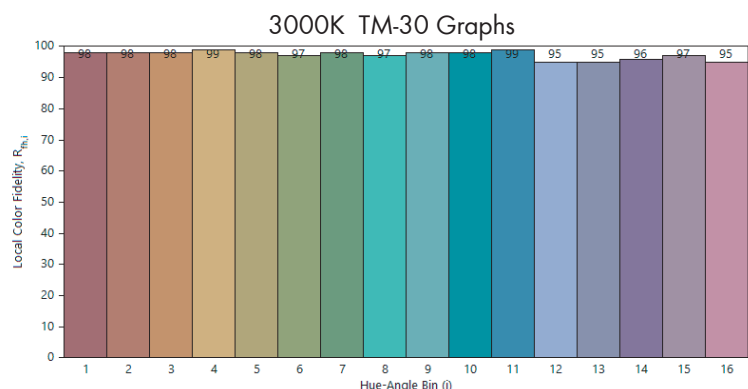

Charging by wireless charger:

Put your CALIDA WIRELESS on the wireless charger. The indicator light will turn to green when battery being fully charged. The wireless charger suitable for various mobiles which support wireless charging function.

The USB type C dock is water proof, however, please keep the product away from wet locations while charging to avoid damage.

Optional accessories

- 5V 2A power adapter (IP 20)
- 10W Wireless Charger (IP 20)

Warning

The product contains Li-ion batteries inside. Please keep it away from fire, strong vibration, exposure to direct sunshine or any improper use. Please keep the wireless charger away from high humidity environment.
