

The CAN floor lamp is the ideal choice for modern hotel rooms and sophisticated living spaces. Available in black and white, it allows the light to be directed precisely thanks to its rotatable and swivelling light body. The widely used GU10 base enables the bulb to be changed quickly, while the screw-in cylinder housing allows tool-free access. Individual accents can be created with the optional, interchangeable decorative rings. The CAN free-standing luminaire is part of a versatile luminaire family that is also available as a pendant, ceiling, wall and outdoor luminaire.

#### Special features

- customisable with extensive accessories
- individual lighting solution thanks to interchangeable light source
- can be customised with cylinder housing in 6 different colours
- can be combined with the extensive product family of the CAN series
