IMPORTANT:

- all sections must be suspended individually and perfectly levelled (horizontally and vertically) before connecting them together - this is crucial
- all suspension cords must be positioned perfectly vertical
- all suspension cords must be tensioned with the same strength
- if these conditions are not satisfied then the different parts will settle to different levels and work against one another.

8. All LED gear trays are numbered and the numbering starts from the cable entry side. In non-standard luminaires the numbering of LED gear trays is made in accordance with technical drawings.
